

TV4Yachts

by SIMONIS Yachtelelectronic & Consultancy

The perfect solution to watch YOUR favorite SatTV EVEN out of the SatTV coverage!

The TV4Yachts was designed especially on the increasing demand of you - our customers to watch your TV programmes as usual even when the Yacht is out of the coverage of the favorite TV satellites.

Here we go – we offer now our way to make this possible with TV4Yachts!

Description:

TV4Yachts is a new solution to use the properties of our **CCU1** (Communication Control Unit) in combination with your KU band Satellite Antenna for TV-LIVE-streaming on board!

Within the great coverage (all Areas in Europe and Mediterranean, Caribbean, Eastcoast US, South America and Middle East) **TV4Yachts** offers you dedicated service for 1 Satellite receiver. We will use your own satellite receiver programmed individually on your wishes.

TV4Yachts allows the you to watch your personal TV even the yacht is out of the coverage of the TVsatellite.

That means you can virtually take your entire home programmes with you.

You'll be at home wherever you roam!

We will manage the system for you and you are just the one using it without trouble.

TV4Yachts offers for example watching Sky TV in regions never been available before.
